NOTE TO TRAVELLER:

It is most important to be flexible, stay positive and willing to accept all challenges that arise. In developing countries remote area, please do not compare with the standards you are used to back home. The trek to the rock painting - Ilikere-kere although short it's quite challenging as it's very steep. Ensure proper comfortable shoes and bring plenty of drinking water.

The drive especially from Viqueque to Uato Carbau via Beacu is very challenging. There are deep river crossings that become impossible during rainy season. The guide will decide if it's safe to continue the journey or drive via north coast to Com.

Prepare yourself to experience the very basic things of life!!
